

Wallbridge Shares Commence Trading on OTCQX

Toronto, Ontario – November 4, 2021 – Wallbridge Mining Company Limited (TSX:WM, OTCQX: WLBMF) (“Wallbridge” or the “Company”) is pleased to announce that its common shares will commence trading today on the United States OTCQX® Best Market (“OTCQX”).

The Company's common shares are to be quoted on the OTCQX under the symbol "WLBMF" and will also continue to trade on the Company's principal market, the Toronto Stock Exchange, under the symbol "WM".

Marz Kord, CEO of Wallbridge, commented: "trading on the OTCQX will broaden access to the Company's common shares to a range of US-based institutional and retail investors as Wallbridge continues to advance its flagship Fenelon Gold property and other projects in Quebec and Ontario."

The OTCQX allows established, investor-focused companies to provide transparent trading for their U.S. investors. For companies listed on a qualified international exchange, streamlined market standards enable them to utilize their home market reporting to make their information available in the U.S. To qualify for the OTCQX, companies must meet high financial standards, follow best practice corporate governance and demonstrate compliance with applicable securities laws.

Nauth LPC acted as the company's OTCQX sponsor.

About Wallbridge Mining

Wallbridge is currently advancing the exploration and development of its 100%–owned Fenelon Gold property located along the Detour–Fenelon Gold Trend, an emerging gold belt in northwestern Québec. The Company completed approximately 102,000 metres of drilling in 2020 and is currently conducting a fully–funded 2021 program of approximately 150,000 metres of drilling and 2,000 metres of underground exploration development (Phase 1 of a 10,000–metre program). The Company will announce the maiden mineral resource estimate on the Fenelon Gold System and host a webcast to discuss the results on November 10, 2021.

Wallbridge's land holdings in Québec along the Detour–Fenelon Gold Trend cover 910.0 km². This includes property adjacent to its Fenelon and Martiniere deposits which provides room for expansion of these deposits as well as providing options for placement of future mine infrastructure. There is also potential for further discoveries along the 97 kilometres of strike length in this underexplored belt.

Wallbridge is also the operator of, and a 17.8% shareholder in, Lonmin Canada Inc., a privately–held company with a portfolio of nickel, copper, and platinum–group metals (PGM) projects in Ontario's Sudbury Basin.

This news release has been authorized by the undersigned on behalf of Wallbridge Mining Company Limited.

This press release of Wallbridge Mining Company Limited ("Wallbridge" or the "Company") may contain forward-looking statements or information (collectively, "FLI") within the meaning of applicable Canadian securities legislation. FLI is based on expectations, estimates, projections and interpretations as at the date of this press release.

All statements, other than statements of historical fact, included herein are FLI that involve various risks, assumptions, estimates and uncertainties. Generally, FLI can be identified by the use of statements that include words such as "seeks", "believes", "anticipates", "plans", "continues", "budget", "scheduled", "estimates", "expects", "forecasts", "intends", "projects", "predicts", "proposes", "potential", "targets" and variations of such words and phrases, or by statements that certain actions, events or results "may", "will", "could", "would", "should" or "might", "be taken", "occur" or "be achieved."

FLI is designed to help you understand management's current views of its near- and longer-term prospects, and it may not be appropriate for other purposes. FLI by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such FLI. Although the FLI contained in this press release is based upon what management believes, or believed at the time, to be reasonable assumptions, the Company cannot assure shareholders and prospective purchasers of securities of the Company that actual results will be consistent with such FLI, as there may be other factors that cause results not to be as anticipated, estimated or intended, and neither the Company nor any other person assumes responsibility for the accuracy and completeness of any such FLI. Except as required by law, the Company does not undertake, and assumes no obligation, to update or revise any such FLI contained herein to reflect new events or circumstances, except as may be required by law. Unless otherwise noted, this press release has been prepared based on information available as of the date of this press release. Accordingly, you should not place undue reliance on the FLI or information contained herein. Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in FLI.

Assumptions upon which FLI is based, without limitation, include: the ability of exploration activities to accurately predict mineralization; the accuracy of geological modelling; the ability of the Company to complete further exploration activities; the legitimacy of title and property interests in the Deposits; the ability of the Company to obtain required approvals; the results of exploration activities; the evolution of the global economic climate; metal prices; environmental expectations; community and non-governmental actions; and any impacts of COVID-19 on the Deposits, the Company's financial position, the Company's ability to secure required funding, or operations. Risks and uncertainties about Wallbridge's business are more fully discussed in the disclosure materials filed with the securities regulatory authorities in Canada, which are available at www.sedar.com.

Covid-19 – Given the rapidly evolving nature of the Coronavirus (COVID-19) pandemic, Wallbridge is actively monitoring the situation in order to continue to maintain as best as possible the activities while striving to protect the health of its personnel. Wallbridge' activities will continue to align with the guidance provided by local, provincial and federal authorities in Canada. The Company has established measures to continue normal activities while protecting the health of its employees and stakeholders. Depending on the evolution of the virus, measures may affect the regular operations of Wallbridge and the participation of staff members in events inside or outside Canada.
